Culver City Firefighters
@CC_Firefighters

While working a freeway accident this morning, Engine 42 was struck by a #Tesla traveling at 65 mph. The driver reports the vehicle was on autopilot. Amazingly there were no injuries! Please stay alert while driving!

Plug-in electric vehicle fire incidents - Wikipedia

W https://en.m.wikipedia.org/wiki/Plug-in_electric_vehicle_fire_incidents

Plug-in electric vehicle **fire** incidents have taken place between the introduction of mass-production plug-in electric vehicles in 2010 and 2014, when the battery type was changed to nickel-metal hydride batteries which do not pose the same risk of thermal runaway as lithium-ion batteries.
